

MEDIA RELEASE

The Pilbara Development Commission has released the 2010 Pilbara Government Agencies Directory, listing over 100 Government agencies servicing the region.

The publication lists regional offices, contact details and positions of interest of Pilbara Parliamentarians, Federal, State and Local Government agencies.

Stephen Webster, Pilbara Development Commission CEO said, “With over 100 Government agencies servicing the Pilbara, it can be difficult to find the right agency or office in your area. WA Country Health alone has over 20 offices, hospitals and services throughout the Pilbara. This directory provides Government agencies, businesses and community members a comprehensive listing of all services in the Pilbara, including contact details of senior positions and people of regional importance.”

Copies of the 2010 Pilbara Government Agencies Directory can be downloaded from the Commission’s website www.pdc.wa.gov.au/publications.aspx or a hard copy is available by contacting our office on (08) 9173 8400.
