Spotlight on the Shire of Ashburton

Tom Price | Onslow | Paraburdoo | Pannawonica

Overview

The Commission notes that inland and coastal towns in the Shire of Ashburton (SoA) have distinct property markets, with different economic drivers. This results in differing levels of demand and variances in stock levels across the rental and sales markets. Therefore, combined LGA level statistics for SoA may not adequately reflect activity of individual markets within the Shire.

In Tom Price, the median sale price increased as stock being listed fell and time on market increased significantly compared to the same period in 2024. Meanwhile, in the rental market the cost to rent and the number of properties listed for rent decreased.

In Onslow, in the rental market weekly rents and more available stock for rent fell compared to 2024. In the sales market, despite time on market increased the median sale price increased and the number of sales listings fell compared to the first half of 2024.
